

BALANCING POOL ALLOCATION RIDER FOR REAS

Availability: To collect from or refund to each REA and T-Rural customers, an amount transferred to the AESO and its customers from the Balancing Pool under Section 82 of the *Electric Utilities Act*. The Balancing Pool Allocation Rider Charges are flowed through from the approved ISO tariff and allocated to the REA wire owners and the T-Rural customers by FortisAlberta. This rider charge is calculated on an annual basis and is billed monthly over a period of 12 months to each REA wire owner and T-Rural customers.
